“B” SERVICE	\$599 Up to 15 Quarts	\$659 Up to 32 Quarts	\$699 Up to 44 Quarts

OIL AND FILTER ONLY

For basic maintenance at a great value, this limited service covers oil and engine filter change only.

QUICK LUBE (32-Point Inspection)

This basic service inspection includes an oil change, chassis lubrication and a review of 32 everyday operational items, such as fluids, wipers, air conditioning, brakes and instrument panel.

“B” SERVICE (86-Point Inspection)

In addition to a lube and oil change, this more advanced inspection includes a complete cab interior inspection and a total inspection outside of the vehicle to check the condition of everything from mirrors and mudflaps to the exhaust and tires. We’ll also do a thorough under-vehicle inspection to check transmission levels, springs and other vital systems. This inspection also satisfies all of the Department of Transportation annual inspection requirements.

Nothing Guards like Fleetguard®

WE USE FLEETGUARD BECAUSE QUALITY MATTERS

Experience the unparalleled benefits of preventative maintenance at our service department, where we use Fleetguard filters. With a rich history of innovation dating back to 1959, Fleetguard continues to lead the industry with groundbreaking technologies. By entrusting your fleet to Fleetguard, you’re not only safeguarding your engines for longer lifespans and reduced wear but also maximizing fuel efficiency, resulting in substantial savings over time. Say goodbye to unnecessary maintenance costs and hello to increased productivity with Fleetguard filters – the trusted choice for superior performance and reliability.

Pricing covers most truck and engine combinations. Inquire when making your appointment to confirm pricing. Additional repairs determined during the inspection and service are an additional cost and may need to be scheduled separately.
